# Instructions for the Immunization Requirement Form

Return the signed and completed form online through the Patient Portal at:

[www.pace.edu/patientportal](http://www.pace.edu/patientportal)

Return by the following dates:

**Fall Term: August 1 | Spring Term: December 1 | Summer I Term: May 1 | Summer II Term: June 1**

**PART ONE:** To be filled out completely by the student. Please make sure to provide us with your Student Identification Number, a phone number(s) you can be reached at, and your Pace assigned e-mail address.

**PART TWO: MEASLES, MUMPS, RUBELLA (MMR):** To be completed by your healthcare provider. Supporting documentation is not required if this part is **signed and stamped legibly**.

New York State Public Health Law requires that all college and university students enrolled for at least six (6) semester hours or the equivalent per semester, or at least four (4) semester hours per quarter, complete and return.

**You must provide proof of having received 2 measles, 1 mumps, and 1 rubella vaccinations.** The dates of these vaccinations must be indicated in the past and all vaccinations must have been received on or after your first birthday.

Please note that any supporting documentation must have been either signed or stamped by a hospital or medical provider or, in the case of prior high school or university records, stamped by an official of that institution. **An original signature or stamp must appear on the documentation.**

**ALL SUPPORTING DOCUMENTATION MUST CLEARLY SHOW THE DATES OF VACCINATIONS ON THEM.**

If you have had either the measles or the mumps in the past, no proof of vaccination will be necessary. However, we will require that the dates when you contracted the disease **be verified by a health care provider or it will not be accepted.**

Another option is taking a Blood Antibody Titer Test and submitting a dated laboratory report. This report must include the laboratory name and address, the student's name and date of birth, the numerical result(s), and numerical interpretation ranges. **Equivocal results reflect negative immunity.**

If you were born prior to January 1, 1957, please check the Birth Exception box. We will verify your birth date against the information available in your student academic record.

**PART THREE: MENINGOCOCCAL MENINGITIS:** To be filled out completely by the student.

On July 22, 2003, Governor Pataki signed [New York State Public Health Law \(NYS PHL\) 2167](#) requiring institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students meeting the enrollment criteria, whether they live on or off campus.

Pace University is required to maintain a record of the following for each student:

- Certificate of Immunization for meningococcal meningitis disease; **or**
- A response to receipt of meningococcal meningitis disease and vaccine information signed by the student or the student's parent or guardian.

Resident first-year students are **strongly encouraged** to receive a meningitis vaccination.

Students in a **nursing** program or a **physician assistant** program **must complete** this part of the form and submit with a copy of the blood titer results required for participation in those programs.

The University Health Care (UHC) Office can assist you in fulfilling these requirements. Inoculations can be administered for Measles, Mumps, and Rubella (MMR). The Meningitis vaccine may be available. You may contact them directly at the numbers below to make an appointment.
